- Saint Petersburg, Russia

My overall experience of more than 20 years, I have worked at Zodiac Systems (now part of Orion Innovation), Quest Software (Dell), and JetBrains. My current expertise is in the JavaScript stack. I hold a master's degree in Math and CS from Moscow Pedagogical State University.

I'm deeply into JavaScript, and more I'm a JS fan. I have experience with other languages, including Python, and I'm sure JavaScript is the best.

I love spending time with my family, also I enjoy traveling, hiking, canoeing, and playing board games.
